INSERTS
for
SUMMARIES

OF

FLUID MILK MARKETING ORDERS

Revised to March 1, 1951,

and

Federal Register Citations
for the Milk Price Orders

The attached are inserts to be substituted for the corresponding pages in the Summaries of Fluid Milk Marketing Orders, April 1, 1948, and Federal Register Citations for the milk price orders. These inserts revise the Federal orders as effective on March 1, 1951. The last insert was issued on February 1, 1951.

Agriculture-Washington

INDEX OF SUMMARIES

| Tulsa | : | X | : | X | - |

1/ Where more than one basis is marked "X" the price is determined each month from the alternative which results in the highest price. Temporary suspension of pricing provisions have not been indicated. 2/ As specified in Order No. 4 for Chicago. 3/ Fixed price with adjustment for changes in butter prices. 4/ Plus 5 local plants.

- (2) Price per pound of Chicago 92-score butter, times 6, plus 2.4 times the average price per pound of Plymouth "Twins" (or "Cheddars"), divided by 7, times 1.3, times 3.5;
- (3) Price per pound of Chicago 92-score butter, minus 3 cents, times 1.2, times 3.5, plus an amount computed as follows: Average price per pound of nonfat dry milk solids (carlots, human consumption, spray and roller process, f.o.b. manufacturing plants in Chicago area), minus 5.5 cents, times 8.5, times .965; or
- (4) The Class III price.

Class I - "Basic formula" price plus 75 cents during May and June, \$1.00 during July, August, March, and April and \$1.20 during all other months, except that for the second delivery period following any period of 12 consecutive months in which the receipts of producer milk exceed 135 per cent of the Class I utilization of all handlers and continuing until the beginning of the second delivery period following a period of 12 consecutive months in which producer receipts are less than 125 per cent of Class I utilization the Class I price shall be the "basic formula" price plus 75 cents during May and June, 95 cents during March, April, July, and August, and \$1.05 during all other months.

Class II - The Class I price less 30 cents.

Class III - Average of prices paid for 3.5 per cent milk at the following plants:

| | |
|---------------------------------|------------------|
| Van Camp Milk Company, | Wauseon, Ohio |
| Pet Milk Company, | Delta, Ohio |
| Defiance Milk Products Company, | Defiance, Ohio |
| Pet Milk Company, | Hudson, Michigan |

Butterfat Differentials:

Class I Price - Price per pound of Chicago 92-score butter, times 1.3, divided by 10.

Class II Price - Price per pound of Chicago 92-score butter, times 1.25, divided by 10.

Class III Price - Price per pound of Chicago 92-score butter, times 1.2, divided by 10.

Producer Price - Price per pound of Chicago 92-score butter, times 1.2, divided by 10.

Location Differentials:

None.

- (b) Divide the latest three Federal Reserve Bank of Atlanta monthly indexes of department store sales in New Orleans adjusted for seasonal variations (1935-1939 equals 100) by 3 and divide the result by 1.10;
- (c) Compute a grain-labor index as follows:
 - (1) Divide average prices per ton paid by Louisiana farmers for mixed dairy feed by 0.5144 and multiply the result by 0.6.
 - (2) Divide by 0.0151 and 0.0144 respectively, dairy farm wage rates without board or room for Mississippi and Louisiana. Compute a weighted average (Mississippi weighted 0.25 and Louisiana 0.75) of the respective wage rates and multiply such weighted average by 0.4.
 - (3) Add the results of (1) and (2).
 - (d) Divide by 3 the sum of the results of (a), (b), and (c) and round to the nearest whole number. The result is the formula index.
- 2. Compute the price for milk of 4.0 per cent butterfat content delivered in the 61-70 mile zone by multiplying \$2.59 by the formula index.
- 3. For any delivery period after September 1950 add 22 cents if the total volume of producer milk in the market during the preceding 5-month period of October through February was less than 110 per cent of Class I sales in the market or subtract 22 cents if the volume of producer milk in the market during such 5-month period was more than 115 per cent of Class I sales in the market~~**~~/
- 4. The price for any of the delivery periods of April through June shall not be higher than the price for the immediately preceding delivery period and the price for any of the delivery periods of October through December shall not be lower than the price for the immediately preceding delivery period.
- 5. The price of butterfat is computed by multiplying the price for Class I milk (as computed in 2 above) by 17.5.
- 6. The price for skim milk is computed by multiplying the price of butterfat by 0.04, subtracting such amount from the price for Class I milk (as computed in 2 above) and dividing the remainder so obtained by 0.96.

** Provision suspended effective 3/1/51.

FEDERAL MILK ORDER NO. 21

Springfield, Missouri

Marketing Area:

City of Springfield, Missouri.

Handler:

A person who operates an approved plant (i.e., one approved by city health authorities and from which milk is disposed of as Class I in the marketing area) or a cooperative association with respect to producer milk which it causes to be diverted from an approved plant to an unapproved plant.

Producer:

Person who produces milk under farm inspection permit and whose milk is delivered to an approved plant or whose milk is diverted from such plant.

Classification:

Class I - Fluid milk, skim milk, buttermilk, milk drinks (plain or flavored), cream (fresh or sour), and unaccounted-for milk.

Class II - All milk other than Class I, inventory variation of any Class I product, shrinkage of milk from producers up to 2 per cent, and all shrinkage of "other source" milk.

Class Prices (3.5 per cent butterfat):

"Basic formula" price - A "basic formula" price is used in determining the Class I and Class II prices. It is the higher of the following:

1. Average price paid during the delivery period for 3.5 per cent milk at 23 condenseries, including the 18 specified in the Chicago order (see list) and 5 other plants as follows:

| | |
|-----------------------------|-----------------------|
| Carnation Co., | Ava, Missouri |
| Carnation Co., | Seymour, Missouri |
| Indiana Condensed Milk Co., | Bunker Hill, Illinois |
| Litchfield Creamery Co., | Litchfield, Missouri |
| Pet Milk Co., | Greenville, Illinois |

2. Price per pound of 92-score butter at Chicago for the delivery period times 1.20, times 3.5,
 PLUS
 3-1/2 cents for each full 1/2 cent that the price per pound of nonfat dry milk solids (carlots, spray and roller process, human consumption, f.o.b. Chicago area plants) is above 5.5 cents.

Class I Price - "Basic formula" price plus \$1.08 for July through December, 83 cents January through March, and 63 cents April through June.

These prices are subject to the following adjustments:

1. Until March 1, 1952, add 15 cents per hundredweight,
2. After March 1, 1952, adjust the Class I price as follows:

| Delivery period
group | : For each percentage point that receipts
: from producers as a per cent of Class I
: milk is | |
|--------------------------|---|----------------------|
| | : | : |
| | : Below 115 per cent | : Above 115 per cent |
| | : (add) | : (subtract) |
| | : | : |
| | : cents | : cents |
| January through March | : 1 | : 2 |
| April through June | : 0 | : 2 |
| July through December | : 2 | : 2 |
| | : | : |

Class II Price - "Basic formula" price, except that 15 cents is subtracted during April, May, June, and July 1951.

Butterfat Differentials:

Class Prices -

Class I - Chicago 92-score butter for the delivery period times 0.125.

Class II - Chicago 92-score butter for the delivery period times 0.120.

Producer Price - Chicago 92-score butter for the delivery period times 0.120.

Location Differentials:

None.

Method of Accounting for Milk:

Weights of skim milk and butterfat are accounted for separately. Upon completion of classification the butterfat test of each class is determined.

Type of Pool:

Market-wide, monthly pool without base rating or new producer clause.

Interhandler Transfers:

Skim milk or butterfat transferred or diverted in the form of milk, skim milk or cream from an approved plant is classified as Class I if (1) transferred to a producer-handler, or (2) transferred or diverted to the approved plant of another handler unless Class II utilization is indicated in writing by both handlers and, in such event, if either or both handlers have "other source" milk, the transfer must be classified to give producer milk the highest valued classification.

Outside Purchases:

Milk received by a handler from sources other than producers is deducted in series first from his Class II utilization of producer milk.

Outside Sales:

Milk sold outside the marketing area is priced the same as milk sold in the marketing area. Skim milk or butterfat transferred or diverted as milk, skim milk or cream to an unapproved plant is Class I if such plant is more than 125 miles from City Hall and as Class I if such plant is less than 125 miles unless Class II utilization of an equivalent quantity is established to the satisfaction of the market administrator.

Producer-handler:

Handlers who distribute only milk of their own production are exempt from regulatory provisions. Reports may be required by the market administrator.

Expense of Administration:

Handlers are assessed not to exceed 5 cents per hundredweight on milk received from producers, including the handler's own production, and on "other source" milk.

Special Producer Provisions:

Deductions for marketing services, as authorized by members, are turned over to cooperative associations.

A marketing service charge not to exceed 5 cents per hundredweight is deducted for non-members.

Payments on account are made, on or before the 28th day of the delivery period, to producers for milk delivered during the first 15 days of each month at not less than the Class II price for the preceding month.

Upon request by a cooperative association handlers are required to make partial and final payments to the association for milk delivered by association members.

Special Handler Provisions:

Skim milk or butterfat priced under another Federal order and distributed as Class I in the marketing area is not subject to this order except that it must be reported to the market administrator and if the Class I price under this order exceeds the Class I price under the other order, the difference must be paid into the producer-settlement fund.

(3/1/51)

(k)

On February 22, 1949, an order, amending the orders, was issued providing for the retention of records and limitation of claims. The Federal Register citation for this amendment is 14 FR 791, and applies to the following markets:

| <u>Market</u> | <u>Order No.</u> |
|----------------------|------------------|
| Boston | 4 |
| Chicago | 41 |
| Cincinnati | 65 |
| Cleveland | 75 |
| Clinton | 70 |
| Columbus | 74 |
| Dayton-Springfield | 71 |
| Dubuque | 12 |
| Duluth-Superior | 54 |
| Fall River | 47 |
| Fort Wayne | 32 |
| Kansas City | 13 |
| Louisville | 46 |
| Lowell-Lawrence | 34 |
| Minneapolis-St. Paul | 73 |
| New Orleans | 42 |
| New York | 27 |
| Omaha-Council Bluffs | 35 |
| Philadelphia | 61 |
| Quad Cities | 44 |
| St. Louis | 3 |
| Sioux City | 48 |
| South Bend-LaPorte | 67 |
| Suburban Chicago | 69 |
| Toledo | 30 |
| Tri-State | 72 |
| Wichita | 68 |

These provisions were incorporated in all other orders as they were issued.
